

From Southern California...

There are a couple routes available from Southern California. From the San Diego area, follow I-8 East to Yuma and then follow the directions in the "From Yuma" guide.

From L.A., visitors can take I-10 East to Arizona SR-95 at Quartzite, AZ, and then south on Arizona SR-95 to Yuma and then follow the directions in the "From Yuma" guide. Another (longer) way would be to take I-10 East to Buckeye, AZ and turn south on Arizona SR-85. Taking this route you would follow the directions in the "From Phoenix" guide, picking it up where you turn south off of I-10 onto Arizona SR-85.
